### DETAILED ACTION

1. This Office Action is responsive to communications filed on July 5, 2005.

Applicant's arguments have been carefully considered and are persuasive. The rejection of claim 1 is thus withdrawn.

### *Drawings*

2. The drawings are objected to because character of lines, numbers, and letters in the drawings was not made by a process which will give them satisfactory reproduction characteristics. Every line, number, and letter must be durable, clean, black (except for color drawings), sufficiently dense and dark, and uniformly thick and well-defined. The weight of all lines and letters must be heavy enough to permit adequate reproduction. This requirement applies to all lines however fine, to shading, and to lines representing cut surfaces in sectional views. Lines and strokes of different thicknesses may be used in the same drawing where different thicknesses have a different meaning, 37 CFR 1.84(l).

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application.

Applicant is reminded that the Patent and Trademark Office no longer makes drawing changes and that it is applicant's responsibility to ensure that the drawings are corrected in accordance with the instructions set forth.
